

Science: Who am I? – Year 1

Learning link

What body parts do you know already?

Linda Buck

She discovered how our noses and brains work together to recognise and remember different smells.

Vocabulary

taste		We use our tongue and mouth to taste food.
hear		We use our ears to listen.
touch		We use our bodies to feel the world around us.
smell		We use our noses to smell.
sight		We use our eyes to see the world.

Practical

Explore the world through our senses.
