

History: How did Britain change from the Stone Age to the Iron Age? - Y3, T1 & 2

Learning link

In years 1 and 2, you learnt about events in history. This enquiry is about what happened much further in the past.

Facts

We learn about prehistory by looking at artefacts from the past, and through experts like archaeologists.

In the Bronze Age, people started making bronze tools and weapons, by mixing together copper and tin.

In the Iron Age, people started mining iron to make stronger and sharper tools and weapons.

People

Stone Age

Bronze Age

Iron Age

Vocabulary	
Palaeolithic	The 'old' Stone Age when people were nomadic. This was the longest time ago.
Mesolithic	The 'middle' Stone Age.
Neolithic	The 'new' Stone Age when people started farming.
Prehistoric	The period of history before written records.
