History: How has travel changed over time? Y2 T2

Learning link:

This enquiry builds on our knowledge of the Victorians. We are exploring how inventions in the 20th and 21st centuries changed the way we move around the world.

Facts:

Trains: The first trains were powered by steam. Over time, they became electric and much faster.

Cars: Early cars like the Model T Ford were slow and expensive. Now, cars are a common way to travel.

Flight: Travel changed forever when humans learned to fly, eventually leading to landing on the Moon.
